Upon acceptance of Your Request and placing the record associated with that Request into the Registry Operator, Registrar (or its applicable contractor or delegate) is acting as Your sponsor for such Request. Provider (and, if different, Registrar, and their respective contractors and delegates) will not be responsible for the actual registration or renewal of the Requested Domain Name. Any registration or renewal of a Requested Domain Name, and all of Provider’s Services hereunder, shall be subject to all applicable Policies (including any restrictions or other limitations set forth therein). No registration of a Requested Domain Name shall be effective until the applicable Registry Operator has accepted Your request to register, and has registered, such Requested Domain Name and You have received confirmation from Provider of such acceptance and registration. In no event shall any Registered Domain Name be activated and available for Customer’s use until Registrar has received full payment of all applicable fees from You or from Reseller, as applicable, or until Registrar is otherwise satisfied that it has received a reasonable assurance of payment. Provider and, if different, Registrar, reserves the right to reject Your Request in its reasonable discretion, including, without limitation, in the event of (a) the registration of the Requested Domain Name being prohibited by applicable laws or regulations or any applicable Policies, (b) Your providing false, inaccurate, unreliable or incomplete information, (c) Provider’s or, if different, Registrar’s, or the applicable Registry Operator’s determination that You fail to satisfy any eligibility requirements that may be applicable with respect to the Requested Domain Name, (d) Provider’s determination that You have failed to provide reasonable assurance of payment of any applicable fees, or Registrar’s determination that the applicable Reseller failed to provide reasonable assurance of payment of any applicable fees, (e)

**2.2. Availability.** You agree and acknowledge that Provider (including, if different, Registrar, and their contractors and delegates) makes no representation to the effect, and does not otherwise guarantee or promise, that the Requested Domain Name is available or that Your Request will be accepted by the applicable Registry Operator, or that the Requested Domain Name will be registered, even where an initial search indicates that the Requested Domain Name is available.

**2.3. No Liability for Registry Operator.** Customer agrees and acknowledges that the Registry Database is maintained, and any related Registry Services are provided, by the applicable Registry Operator in its sole discretion and not by Provider, or, if different, Registrar, or their contractors or delegates. Provider and/or, if different, Registrar (including their contractors and delegates) are not responsible for, and shall have no obligations or liability whatsoever arising from or relating to, (i) the maintenance of the Registry Database or the provision of any Registry Services or any failure with respect thereto or any other acts or omissions of any Registry Operator or other third party, including without limitation any failure to register any Domain Name, or any suspension, cancellation, transfer or non-renewal of any registered Domain Name, or (ii) any errors or omissions in the Registry Database, any Whois database or any other third party information. Customer also agrees and acknowledges that the registration of a Requested Domain Name may be rejected, and that any Registered Domain Name and any Registry Services may be subject to suspension, cancellation, transfer or non-renewal pursuant to any applicable Policies.

**2.4. Term of Registration and Renewal.** Registrations of Registered Domain Names pursuant to a Request processed by Provider are for an initial period of twelve (12) months or such other period as may be expressly agreed to by Provider and, if different, Registrar (the "**Registration Period**"). Subject to Provider's then-current fees and other terms and conditions, You may request (as set forth in Section 2.1 and in accordance with all terms and conditions of this Agreement) a renewal of the registration for subsequent twelve (12) month periods or such other period as may be expressly agreed to by Provider and Registrar (each a "**Renewal Period**"). Provider will notify You regarding the expiration of the Registration Period or any Renewal Period in accordance with the Expired Registration Recovery Policy (or any amended or replacement Policy), the current version of which is currently available at <https://www.icann.org/resources/pages/errp-2013-02-28-en>. You are solely responsible for ensuring that any Services or any registration of any Registered Domain Name are renewed. Provider (including, if different, Registrar, and their contractors and delegates) shall have no liability to You or any third party in connection with any such renewal or any failure thereof or errors relating thereto. Provider may choose to offer automatic renewal services pursuant to Provider's terms and conditions applicable thereto.

**2.5. Expired Domain Deletion Policy.** In the event of a failure to renew a Registered Domain Name upon expiration of the Registration Period, the Expired Domain Deletion Policy (or any amended or replacement Policy), the current version of which is attached hereto as Exhibit B, shall apply. Notwithstanding the foregoing, in the event of a failure to renew a Registered Domain Name in any Other TLD upon expiration of the Registration Period, the relevant provisions set forth in the applicable Exhibit shall apply.

**2.6. Additional Services and Terms.** With respect to Defensive Registrations, and SLD E-Mail Registrations (all as defined in Exhibit A hereto) the additional terms and conditions set forth in Exhibit A hereto apply. With respect to Other TLDs the additional terms and conditions set forth in the applicable Exhibit relating to such Other TLD apply. Such terms and conditions shall be in addition to the other terms and conditions of this Agreement and shall take precedence in the event of any conflict or inconsistency with the other terms and conditions of this Agreement. Subject to the foregoing, Defensive Registrations, SLD E-Mail Registrations and “Name Watch Registrations” (as described in Provider’s and the applicable Registry Operators applicable service descriptions) shall be deemed Requested Domain Names or Registered Domain Names, as applicable, for purposes of this Agreement.

**2.7. Resellers.** If You are purchasing Services from any of Registrar’s direct or indirect Resellers, this Agreement is solely between You and such Reseller (subject to Registrar’s rights set forth herein and pursuant to Section 17.9 hereof), and You shall have no rights against Registrar, and Registrar shall have no obligations or other liabilities to You whatsoever, under this Agreement, provided that nothing herein shall affect Registrar’s obligations under its agreement with ICANN or any other applicable NIC. You agree and acknowledge that, (i) Reseller may not be an ICANN-accredited registrar, (ii) Registrar is the sponsoring registrar of the Registered Domain Name, and (iii) any of Your rights and benefits pursuant to this Agreement or otherwise with respect to the Registered Domain Name may be contingent on the Reseller complying with its obligations under applicable agreements with Registrar (or Registrar’s other direct or indirect Reseller’s) and with all applicable laws, regulations, and Policies.

**2.8. Compliance with Laws and Policies.** Without limiting any other obligation under this Agreement, You shall refrain, at all times, from any and all Illegal Activity, comply, at all times, with all applicable laws, regulations, and Policies (including, in each case, those that relate to privacy, data collection, consumer protection (including in relation to misleading and deceptive conduct), fair lending, debt collection, organic farming, disclosure of data, and financial disclosures), and all applicable Policies are incorporated into this Agreement by this reference. You are also prohibited from engaging in any of the following activities in connection with any Request, the use of any Domain Name, or otherwise in connection with the Services or any Registry Services: distribution of malware, operation of botnets, phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, or counterfeiting.

### **3. Customer and Administrative Contact; Registrant Rights and Responsibilities.**

3.1. You hereby appoint the person or entity named as the administrative contact for the Requested Domain Name as Your agent with full authority to act and receive notices and other communications on Your behalf relating to the Requested Domain Name, the Registered Domain Name or otherwise to the Services or this Agreement. Such authority shall include, without limitation, the authority to cancel or transfer the Registered Domain Name, to terminate or modify any Services, to purchase additional Services, to submit, change and agree to any disclosure, processing, and other use of Customer Data, and to receive any notices or other communications.

3.2. ICANN may from time to time publish websites identifying available registrant rights and responsibilities. A link to such websites will be available on Provider's registration and/or renewal websites. The "Registrant Educational Materials" are currently available at <https://www.icann.org/resources/pages/educational-2012-02-25-en> and the "Registrants' Benefits and Responsibilities" are currently available at <https://www.icann.org/resources/pages/benefits-2013-09-16-en>.

#### 4. **Transfer of Sponsorship; License; Proxy**

##### 4.1. **Inter-Registrar Transfer.**

4.1.1. You may not change the registrar acting as the sponsor for any Registered Domain Name during the sixty (60) day period following the initial registration of such Registered Domain Name. Following the period described in the foregoing, You may request a change of the registrar acting as the sponsor for a Registered Domain Name in accordance with the then-current policies of Registrar and the applicable Registry Operator and any other applicable Policies (a "**Transfer**"). In no event shall any fees due hereunder be refundable, in whole or in part, in the event of any Transfer. You must maintain records to prove the date of Your Request and the initial registration of the Registered Domain Name. Without limiting the generality of the foregoing, You understand and agree that all Transfers are subject to the Transfer Policy (or any amended or replacement Policy), the current version of which is currently available at <https://www.icann.org/resources/pages/transfer-policy-2016-06-01-en> ("**Transfer Policy**"). Registrar reserves the right to refuse a Transfer absent proof of proper authorization or as otherwise permitted by the Transfer Policy or other Policies. The Transfer Policy permits refusal of a Transfer in the following instances: (a) evidence of fraud; (b) reasonable dispute over the identity of the Registered Name Holder (as defined in the Transfer Policy) or Administrative Contact (as defined in the Transfer Policy); (c) no payment for previous registration period (including credit card charge-backs) if the Registered Domain Name is past its expiration date or for previous or current registration periods if the Registered Domain Name has not yet expired, in which cases the Registered Domain Name will be put into "Registrar Hold" status by Registrar prior to the denial of Transfer; (d) express objection to the Transfer by the authorized Transfer Contact (as defined in the Transfer Policy), which objection could take the form of specific request (either by paper or electronic means) by the authorized Transfer Contact (as defined in the Transfer Policy) to deny a particular Transfer request, or a general objection to all transfer requests received by Registrar, either temporarily or indefinitely,

in all cases with the express and informed consent of the authorized Transfer Contact (as defined in the Transfer Policy) on an opt-in basis; upon request by the authorized Transfer Contact (as defined in the Transfer Policy), Registrar will remove the lock or provide a reasonably accessible method for the authorized Transfer Contact (as defined in the Transfer Policy) to remove the lock within five (5) calendar days; (e) the Transfer was requested within sixty (60) days of the creation date as shown in the registry Whois record for the Registered Domain Name; (f) the Registered Domain Name is within sixty (60) days (or a lesser period to be determined) after being transferred (apart from being transferred back to the original registrar in cases where both registrars so agree and/or where a decision in the dispute resolution process so directs), all in accordance with the procedures of the Transfer Policy. The Transfer Policy requires refusal of a Transfer in the following instances: (i) a pending UDRP proceeding that the Registrar has been informed of (see also Section 6.2 of the Agreement); (ii) a court order of competent jurisdiction; (iii) a pending dispute related to a previous transfer pursuant to the Transfer Dispute Resolution Policy; (iv) a pending URS proceeding or a URS suspension that the Registrar has been informed of; and (v) the Registrar imposed a 60-day inter-registrar transfer lock following a Change of Registrant, and the Registered Name Holder did not opt out of the 60-day inter-registrar transfer lock prior to the Change of Registrant request.

4.1.2. Registrar may set the Registered Domain Name in “ClientTransferProhibited” status upon registration or upon Your subsequent request. Registrar will remove the “ClientTransferProhibited” status within five (5) calendar days of Your initial request if Registrar does not provide facilities for You to remove the “ClientTransferProhibited” status. Within the same period of time Registrar will provide You with the unique “AuthInfo” code if Registrar does not provide facilities for You to generate and manage Your own unique “AuthInfo” code. Registrar prohibits the Transfer of a Registered Domain Name only as set forth in Section 4.1.1 above.

4.1.3. You understand and agree that You may be required to (i) provide a transfer authorization form and additional information and evidence and (ii) to confirm the requested Transfer, including, for example, by responding to an e-mail sent by Registrar or another registrar.

4.2. **Change of Registrant.** The Transfer Policy’s change of registrant provisions apply to any Material Change to the Prior Registrant’s name, organization, or email address, or the administrative contact email address if there is no Prior Registrant email address (collectively, a “**Change of Registrant**”). A “**Material Change**” means a change which is not a typographical correction, including a change to the Prior Registrant’s name or organization that does not appear to be a merely typographical correction, a change to the Prior Registrant’s name or organization together with a change of address or phone number, any change to the Prior Registrant’s email address. In the event of any proposed Change of Registrant, Registrar will confirm that the Domain Name is eligible for a Change of Registrant and will confirm the Change of Registrant request with the Prior Registrant and the New Registrant and/or each of the respective Designated Agents to ensure all involved parties’ explicitly consented to the Change of

Registrant request. The foregoing Change of Registrant process does not apply if: (a) the registration agreement expires or is terminated by Registrar; (b) Registrar or the Registry Operator updates the information of the Prior Registrant pursuant to a court order; or (c) Registrar updates the Prior Registrant's information in the implementation of a UDRP decision, in accordance with the Expired Domain Deletion Policy, or in response to an abuse complaint. The Transfer Policy requires Registrar to deny a Change of Registrant request in the following instances: (x) the registration agreement has expired, and the Registered Domain Name holder no longer has the right to renew or transfer the Domain Name to another registrar as provided for in Section 2.2.5 of the Expired Registration Recovery Policy; (y) the Change of Registrant was not properly authorized by the Prior Registrant and the New Registrant as set forth in this Section 4.2 and the Transfer Policy; or (z) the Registered Domain Name is subject to a Domain Name related dispute, including a UDRP proceeding that Registrar has been informed of, a URS proceeding that Registrar has been informed of, a TDRP proceeding, or a court order by a court of competent jurisdiction prohibiting a Change of Registrant that Registrar has been informed of. Subject to the foregoing and the Transfer Policy, Registrar will process permitted Change of Registrant requests within one (1) day of obtaining all required confirmations and notify the Prior Registrant and the New Registrant within one (1) day of the completion of the Change of Registrant as required by the Transfer Policy. Registrar will impose a sixty- (60) day inter-registrar transfer lock after the Change of Registrant is completed and may impose additional restrictions on removal of the lock, provided, however, that Registrar may provide the option to opt out of the post-transfer lock prior to any Change of Registrant Request. If the final goal is to transfer the Registered Domain Name to a different registrar, You are advised to request the inter-registrar transfer before the Change of Registrant request to avoid triggering the 60-day lock.

4.3. **License.** In the event that You license the use of a Registered Domain Name to a third party You shall remain the registered holder of such Domain Name and You shall remain responsible for performing any and all obligations under this Agreement, including, without limitation providing and updating all Customer Data (including, without limitation, accurate technical and administrative contact information adequate to facilitate timely resolution of any problems that arise in connection with the Registered Domain Name) and paying all applicable fees, and You shall be liable for any acts or omissions of such third party as if such acts or omissions were Your own. You shall be liable for any harm caused by any use of the Registered Domain Name and You shall promptly (and in no event later than seven (7) days following the receipt of reasonable evidence of actionable harm) disclose the current contact information and the identity of the licensee to a party providing You with reasonable evidence of actionable harm.

4.4. **Proxy Registration.** If You are requesting or registering the Requested Domain Name or Registered Domain Name for a third party customer, user, or licensee ("**Beneficiary**") pursuant to a privacy service or on a "proxy" or similar basis, You (a) must submit to Provider the name and postal address, e-mail address, and voice telephone number provided by the Beneficiary (which information shall be deemed to be Customer Data for purposes hereof), (b) agree that Provider and, if different, Registrar may retain such information in its database(s) and Process such information as permitted herein, and

(c) agree that Reseller may, and may be required to, submit such information to Registrar and/or hold such information in escrow, to be released to Registrar, among other events, in the event of a breach by Reseller of its agreement with Registrar (or Registrar's other direct or indirect resellers). Nothing herein shall be deemed to constitute an obligation to hold any such information in escrow. You agree to comply with, and do everything required to enable Provider to comply with the Specification on Privacy and Proxy Registrations (or any amended or replacement Policy), the current version of which is currently available at <https://www.icann.org/resources/pages/approved-with-specs-2013-09-17-en#privacy-proxy>.

## 5. Customer Data and Service Records

**5.1. Submission of Customer Data.** Customer shall promptly (concurrently with the Request) submit to Provider true, accurate, reliable, complete and current Customer Data and maintain, promptly (and in no event later than seven (7) days following any change to such Customer Data) update and keep current such Customer Data at all times during the term of this Agreement. “**Customer Data**” shall include, without limitation, the following data and information: (i) the name of the Requested Domain Name, (ii) the names and IP addresses of the primary, secondary, and any other name servers for the Registered Domain Name, (iii) Your full name, postal address, voice telephone number, fax number (where available) and email address, (iv) the full name, postal address, voice telephone number, fax number (where available) and email address of the person or entity on behalf of which You are acting, if any, (v) the full name, postal address, voice telephone number, fax number (where available) and email address of each of the technical contact, the administrative contact, and the billing contact for the Registered Domain Name, (vi) the time and date of Your Request and any applicable requested Registration Period, (vii) any other data and information, including Personal Data, that is maintained or required to be maintained in a Registry Database, that is used or required in connection with any Registry Services or by any NIC or Registry Operator, or that is used or required in connection with the Services (including data required to comply with applicable Data Retention Specifications or other Policies), and (viii) any corrections, updates and other changes of or to any of the foregoing. “**Customer Data**” further includes any and all Nexus Information. #### 5. **Enforcement of Accurate Whois Data.**

- a. Customer shall provide to Provider and, if different, Registrar accurate and reliable contact details and promptly correct and update them during the term of the Registration and Renewal periods, including: the full name, postal address, e-mail address, voice telephone number, and fax number if available of the Customer; name of authorized person for contact purposes in the case of a Customer that is an organization, association, or corporation; and the Customer Data as defined in Section 5.1 of the Agreement.

## **6. Expired Domain Deletion Policy**

- a. At the conclusion of the registration period, failure by or on behalf of Customer to consent that the registration be renewed within the time specified in a second notice or reminder shall, in the absence of extenuating circumstances, result in cancellation of the registration of the Registered Domain Name by the end of the auto-renew grace period (although Registrar may choose to cancel the name earlier).
- b. Extenuating circumstances are defined as: usDRP action, valid court order, failure of Provider or, if different, Registrar's renewal process (which does not include failure of Customer to respond), the Registered Domain Name is used

- c. Where Provider or, if different, Registrar chooses, under extenuating circumstances, to renew the Registered Domain Name without the explicit consent of Customer, Provider or, if different, Registrar must maintain a record of the extenuating circumstances associated with renewing that Registered Domain Name for inspection by Registry.
- d. In the absence of extenuating circumstances (as defined in Section 6(b) of this Exhibit N above), the Registered Domain Name must be deleted within 45 days of either the Provider or the Customer terminating the Agreement.
- e. In the event that the Registered Domain Name is the subject of a usDRP dispute and is deleted or expires during the course of the dispute, the complainant in the usDRP dispute will have the option to renew or restore the name under the same commercial terms as Customer. If the complainant renews or restores the name, the name will be placed in "ClientHold" and "clientUpdateProhibited, clientDeleteProhibited, clientTransferProhibited and clientRenewProhibited" statuses, the Whois contact information for Customer will be removed, and the Whois entry will indicate that the name is subject to dispute. If the complaint is terminated, or the dispute finds against the complainant, the Registered Domain Name will be deleted within 45 days. You retain the right under the existing redemption grace period provisions to recover the name at any time during the Redemption Grace Period, and retain the right to renew the name before it is deleted.

7. **Termination, Deletion, Cancellation or Transfer.** You acknowledge and agree that a violation of any of the representations, warranties or covenants of this Exhibit N shall be grounds for termination of this Agreement, without any refund of fees. Additionally, You acknowledge and agree that the registration of the Registered Domain Name shall be subject to suspension, deletion, cancellation, or transfer, (1) to protect the integrity and stability of the registry; (2) to comply with any applicable laws, government rules or requirements, requests of law enforcement, in compliance with any dispute resolution process; (3) to avoid any liability, civil or criminal, on the part of Registry, Provider or Registrar, as well as its affiliates, subsidiaries, officers, directors, representatives, employees and stockholders; (4) for violations of this Agreement and/or Exhibit N ; (5) to correct mistakes made by Registry or any registrar in connection with a Domain Name registration or (6) to prevent the use of a Domain Name used for the submission of unsolicited bulk e-mail, phishing, pharming, malware, bot-nets or other abuse or fraudulent purposes. Customer agrees to compensate Donuts and its stockholders, directors, employees, members, subcontractors, the Trademark Clearinghouse and their respective directors, agents and employees for any costs or expenses incurred or damages for which they may be held liable as a result of third parties taking action against Donuts on the grounds that the Request for or the registration, use of the second level domain, representing the string to the left of the dot preceding the TLD ("**SLD**"), or the block preventing the registration of a SLD across all TLDs then owned and operated by Donuts ("**DPML Block**") by You infringes the rights of a third party.

Donuts shall be entitled, but not obligated, to immediately suspend or cancel any registration of a Registered Domain Name that is in breach of this Agreement.

**12. Payment to Donuts.** Payment of any fees due, for which Customer is solely liable, must be made to Donuts via Provider. Donuts is not responsible for any failure on the part of the Provider in this respect, including where such failure results in non-registration, non-renewal or termination of the applicable registration concerned. If Customer has paid the Provider for a registration or its renewal, Provider must perform the paid for action. Furthermore, You shall not enter into any settlement or compromise of any such indemnifiable claim without Registry Operator's prior written consent, which shall not be unreasonably withheld. ## Exhibit AC

### Additional Terms and Conditions for .ceo TLD Registrations

1. **Effect of Additional Terms.** The additional terms and conditions set forth in this Exhibit AC shall apply only with respect to the .ceo TLD. Except as expressly modified by this Exhibit AC, all terms, conditions and provisions of the Agreement shall continue in full force and effect as set forth in the Agreement. Except as otherwise modified or defined herein, all capitalized terms in this Exhibit AC have the same meanings as set forth in the Agreement. In the event of a conflict between the terms and conditions elsewhere in the Agreement and the terms and conditions contained in this Exhibit AC, the terms and conditions of this Exhibit AC shall prevail.
2. The Registry Operator for the .ceo TLD shall be CEOTLD Pty. Ltd. a limited proprietary formed under the laws of Australia with its principle place of business located at 322/5 Lime Street, Sydney, 2000, Australia. Registry Operator has been appointed to be the administrator of the .ceo TLD by the U.S. Department of Commerce (“**DoC**”) to operate a shared registration system, TLD nameservers, and other equipment for the .ceo TLD, and has entered into an agreement with DoC regarding the registration of Domain Names in the .ceo TLD (“**Registry Agreement**” available at: <http://www.icann.org/en/about/agreements/registries/ceo>), the relevant portions of which are incorporated herein by this reference.
3. By applying to register or renew a Domain Name in the .ceo TLD or by registering one or more Domain Name(s), the Registrant hereby acknowledges that they have read and agree to be bound by all terms and conditions of this Exhibit, as well as the other policies posted as may be found on the Registry Operator’s website (“**Registry Operator Policies**”).

The most recent Registry Operator Policies apply to any and all Requests, Domain Names, and Domain Name registrations in the .ceo TLD and explain the terms, conditions, rights, and obligations between the Registry Operator, the Registrar, and the Registrant. Those parts of the Registry Operator Policies that are not part of the text of this Exhibit are incorporated into this Exhibit by this reference.

The Registry Operator may, in its sole discretion, modify the Registry Operator Policies at any time and from time to time. The Registry Operator shall post the current version of the Registry Operator Policies on the Registry Operator’s website. The Registry Operator may inform Registrars of changes to the Registry Operator Policies via email, and the Registrar may in turn notify the Registrant of any changes thereto; the Registrant agrees that such email shall not be considered spam; however, neither the Registry Operator nor the Registrar shall be obligated to provide such notice via email or otherwise. The Registrant agrees to check the Registry Operator’s website periodically for Registry Operator Policy updates.

The Registrant's continued registration and/or use of a Domain Name following the date the most current version of the Registry Operator Policies is posted to the Registry Operator's webpage, which shall be the effective date, constitutes the Registrant's acceptance of such revised Registry Operator Policies. In the event that the Registrant does not wish to be bound by the revised Registry Operator Policies, the Registrant's sole remedy is to cancel the registration of any Domain Name covered by the Registry Operator Policies, by following the appropriate Registry Operator Policies and/or Registrar policies regarding such cancellation.

4. **Registration Fee.** The Registrant shall pay to the ICANN-accredited Registrar the appropriate registration fee ("**Registration Fee**") applicable at the time the Registrant submits its Request to such accredited Registrar. Payment of the Registration Fee shall be made in accordance with the requirements of the accredited Registrar, and the Registry Operator Policies are effective at the time of submission of such application or at the time of payment, whichever is earlier. All Registration Fees paid pursuant to this Exhibit are non-refundable except as provided for herein. It is the responsibility of the accredited Registrar to pay a separate registration fee to the Registry Operator in connection with such Request, and the Registry Operator is not bound to accept any Request until such separate Registration Fee is paid. The Registry Operator will not refund any Registration Fee or other fee to the Registrant in the event of non-performance by any such Registrar; the Registry Operator disclaims any and all liability for any losses incurred as a result of any Registrar non-performance including where a third party may obtain registration of a Domain Name for which a Request has been submitted.
5. **Term and Renewal Term.** The Registrant's exclusive registration of the Domain Name shall continue for the term specified in the accepted Request (the "**Term**"), subject to the Registry Operator's and/or Registrar's right to suspend or terminate the Domain Name pursuant to this Agreement and the Registry Operator Policies, which are incorporated herein by reference. Domain Name registrations may be made for an annual term of between one (1) and ten (10) years.
6. **Registrant Information.** The Registrant shall ensure that the Request and Customer Data, will, throughout the Term, comply with the Registry Operator Policies as may be in effect from time to time and will remain true, current, complete, accurate, and reliable. The Registrant shall maintain, update, and keep the Request and Customer Data true, current, complete, accurate, and reliable by immediately making such changes in Your account at the Registrar. The Registry Operator reserves and may exercise the right to suspend and/or terminate the Registrant's registration of the Domain Name if: (i) information provided by the Registrant to the Registrar and/or Registry Operator appears, in the Registry Operator's sole discretion, to be false, inaccurate, incomplete, unreliable, or misleading in any respect; or (ii) the Registrant fails to maintain, update, and/or keep the Request and Customer Data true, current, complete, accurate, and reliable. In such a circumstance, the Registry Operator may, in its sole discretion, with the cooperation of the sponsoring Registrar, suspend the Registrant's Domain Name(s) upon the Registry Operator's receipt of knowledge that

such information is deficient. The Registrant acknowledges that a breach of this Section will constitute a material breach of this Exhibit, which will entitle the Registry Operator to terminate this Exhibit, resulting in suspension and/or deletion of the Domain Name, immediately upon such breach without any refund of the Registration Fee and without any obligation of notice to the Registrant. The Registry Operator shall not be liable to the Registrant or any third party either for taking action, or failing or declining to take action for the Registrant's violation of this Section.

- a. The Registrant acknowledges and agrees that all personal information about the Registrant which is supplied to the Registry Operator and/or an accredited Registrar may be publicly available to third parties via a public "Whois" service, as required by ICANN and as allowed by applicable laws.
- b. Registrants must provide all contact information as required by the ICANN-accredited Registrar. Providing true, current, complete, and accurate contact information is an absolute condition of registration of a Domain Name within the .ceo TLD. If any Customer Data or information in the Request provided during registration or subsequent modification to that information is false, inaccurate, or misleading or conceals or omits pertinent information, the Registry Operator may, in its sole discretion, terminate, suspend, place on hold, or cancel the Domain Name registration of any Registrant without notification and without refund to the Registrant.
- c. The Registrant is responsible for responding in a timely fashion to communications from a Registrar or the Registry Operator regarding any Domain Name registered by or on behalf of the Registrant.
- d. The Registry Operator retains the irrevocable right, but expressly disclaims any obligation, in its sole discretion, to monitor and/or scan any content published or sent under a Domain Name registered in the .ceo TLD, including where such content involves an intrusion or causes modification of Registry Operator or other data, providing such scanning is for the purpose of identifying Internet security vulnerabilities or the presence of malicious software or content capable of causing harm or disruption to the systems of other Internet users or the Registry Operator, or content which is illegal. The Registry Operator may delegate this right to its agents, representatives, successors, and assigns or choose not to exercise the right. The Registry Operator shall not be liable to the Registrant or any third party either for taking action, or failing or declining to take action for the Registrant's violation of this Section.

7. **Registrant's Agents.** The Registrant understands, acknowledges, and agrees that by using the Domain Name, the Registrant accepts the terms and conditions of and is bound by this Exhibit (including the Registry Operator Policies incorporated into this Exhibit), even if an agent (such as an Internet service provider, Domain Name retailer, Domain Name reseller, or employee) entered into this Exhibit on the

Registrant's behalf, and even if the Registrant has not itself read this Exhibit and/or the Registry Operator Policies. Further, the Registrant understands, acknowledges and agrees that it is responsible for all information submitted by its agent. The Registry Operator may, but will not be bound to, cancel this Exhibit due to any errors or omissions by the Registrant's agent in the registration process or thereafter (e.g., if such agent provides incorrect Registrant Information), as the agent's apparent authority will be deemed actual authority and will suffice to bind the Registrant. By acting on the Registrant's behalf, such agent represents and warrants to the Registry Operator that the agent is authorized to bind the Registrant hereto and that it has fully and thoroughly advised the Registrant of the terms and conditions of this Exhibit (including the Registry Operator Policies incorporated into this Exhibit).

8. **Scope of Registration.** On payment of the Registration Fee to the Registrar and after payment by the Registrar to the Registry Operator of the separate Registrar registration fee, and after acceptance of the Request, the Registrant will be entitled to a limited license for the exclusive use of the Requested Domain Name which, in the event of sale, assignment, sublicense, or otherwise, the registration and use of the Domain Name shall at all times be subject to continuing compliance with the terms of this Exhibit and the Registry Operator Policies, for the duration of the Term. However, the Registrant may not sublicense, use, display, exploit, or register a Domain Name in any manner which, in the sole discretion of the Registry Operator or its delegee, may constitute illegal activity or cause or permit any contravention or violation of the Registry Operator Policies, whether or not in connection with the Registered Domain Name. In the event of any assignment, sub-license or similar transaction, the Registrant remains responsible for complying with all terms and conditions of this Exhibit, and accepts liability for any harm caused by such sublicensor or third party's use of the Domain Name in contravention of this Exhibit or the Registry Operator Policies. The Registrant acknowledges that a breach of this Section by the Registrant and/or its agent, assignee, sub-licensor, or any other third party, will constitute a material breach of this Exhibit, which will entitle the Registry Operator to terminate this Exhibit or take such other action as it deems necessary or desirable, without any refund of the Registration Fee, at the Registry Operator's sole discretion. Further, in the event of such termination, the Registry Operator or Registrar may, in such party's sole discretion, refuse registration of Domain Names by Registrant or discontinue services with respect to the Registrant's Domain Name or any other Domain Name which, in the sole discretion of the Registry Operator or its delegee, it deems to be related, including but not limited to other Domain Names registered by the same Registrant and/or agent. In case of such refusal or discontinuation without cause ("cause" being defined as dishonouring any payment made to an accredited Registrar and/or the Registry Operator or any violation of the Registry Operator Policies), neither the Registry Operator nor an accredited Registrar shall be liable for any loss, damage, or other injury whatsoever, including but not limited to economic or consequential loss and/or damages, resulting from the Registry Operator's or the accredited Registrar's refusal to register, or decision to discontinue services for, the Registrant's Domain Name, including to the extent permitted by applicable law in cases of negligence.

9. **Registrant Representations and Warranties.** The Registrant represents, warrants, and covenants that:
- a. the Registrant understands that registration entitles the Registrant only to a limited license for the use of the Domain Name(s) for the Term, subject to compliance with this Exhibit, the Registry Operator Policies and other applicable rules and laws, including those concerning trademarks and other types of intellectual property rights, as these may now exist or be revised from time to time. Registrant agrees to be bound and abide by any ICANN Consensus Policies including, but not limited to, the Uniform Domain Name Dispute Resolution Policy (“**UDRP**”) and Uniform Rapid Suspension (“**URS**”), as now in effect and as may be adopted and/or amended at any time and from time to time;
  - b. neither the registration of the Domain Name, nor the manner in which it is to be directly or indirectly used by the Registrant or otherwise, will or may infringe the legal rights or intellectual property rights of a third party;
  - c. the Registrant will use or display the Domain Name in accordance with the laws, rules, and regulations of any applicable national, state, territorial, or international or other laws, rules, and regulations, and ICANN Consensus Policies, and will not use the Domain Name in any way which violates or may violate a right of the Registry Operator or any third party;
  - d. any violation of these Registry Operator Policies may result in lock, suspension, or termination of the Domain Name in question or other Domain Names the Registrant may have registered in the TLD, in the Registry Operator’s sole discretion;
  - e. the information provided by the Registrant is true, complete and accurate, and the Registrant will update said information in a timely manner if it changes;
  - f. the Registrant is either: (a) an identifiable human individual over the 18 years of age or otherwise recognized as being able to enter into a legally-binding contract under applicable law; or, (b) a properly described and legally-recognized entity within its national jurisdiction, e.g., corporation, limited liability company, partnership, association, society, or proprietary limited company for which the Registrant has legally binding authority to enter into this Agreement and the Registry Operator Policies;
  - g. the Registrant will not, directly or indirectly, through registration or use of the Domain Name or otherwise:
    - i. register a Domain Name for the purpose of unlawfully diverting trade from another business or website;

- ii. deliberately register as a Domain Name misspellings of another person or entity's personal, company or brand name(s) or confusingly similar Domain Name(s) in order to pass-off or trade on the business, goodwill or reputation of another, or otherwise infringe upon a third party's intellectual property rights; or
  - iii. grant or purport to grant a security interest or other encumbrance on or over the Domain Name unless: such security interest or other encumbrance does not exceed the rights of the Registrant in the Domain Name as limited by this Agreement, does not impair the Registrant's ability to fulfil the Registrant's obligations under this Agreement, and does not impose or purport to impose obligations on the Registry Operator beyond the obligations owed by the Registry Operator to the Registrant in the absence of such a security interest or encumbrance.
- h. the Registrant meets, and will continue to meet for the whole of the Term, any and all eligibility criteria prescribed in the Registry Operator Policies for registering and using the Domain Name;
  - i. the Registrant will maintain the Request and Customer Data provided pursuant to the requirements of this Agreement;
  - j. the Registrant has not previously submitted a Request for registration of a Domain Name for the same character string where:
    - i. the Registrant is relying on the same eligibility criteria for both Requests; and
    - ii. the Request has previously been rejected;
  - k. any content, material, email, or webpage, contained on any Uniform Resource Locator ("URL"), website, or webpage accessing, utilizing, or accessed by means of the Domain Name, complies with the Registry Operator's Acceptable Use Policy, whether incorporated directly into, forwarded, or framed by means of the Domain Name or otherwise;
  - l. the Registrant has not relied upon any representation or promise which does not appear in this Agreement; and
  - m. the Registrant's use of the Domain Name and of any webpage, email, or URL accessed by or utilizing the Domain Name will comply with the requirements of the Registry Operator's Acceptable Use Policy.

**10. Breach and Cure.** Failure of a Registrant to abide by any provision of this Exhibit and all other Registry Operator Policies will be considered a material breach. In the event of such material breach, the Registry Operator may in its sole discretion, with

the cooperation of the sponsoring Registrar, suspend, lock, modify, or transfer the Domain Name and/or may provide written (which may be by email) notice to the Registrant describing the material breach. In any event, where the Registry Operator gives notice, by way of the accredited Registrar, to the Registrant, that there is a breach, the Registrant shall rectify, cure, or refute within thirty (30) calendar days. In the event a breach is not rectified, cured, or refuted by the Registrant to Registry Operator's sole satisfaction within the thirty (30) day period, the Registry Operator may cancel or otherwise modify the Registrant's registration of and license to use the Domain Name without refund and without further notice, and pursue any and all legal remedies it may have against the Registrant. Any such breach by the Registrant shall not be waived in the event that the Registry Operator did not act earlier in response to the specific breach, or any other breach, by Registrant. In the event of a breach which, in the sole discretion of the Registry Operator or the sponsoring Registrar, causes or is likely to cause immediate harm to the public interest or the Registry Operator, or which violates or is likely to violate any applicable law or regulation, then an accredited Registrar and/or the Registry Operator may, with the cooperation of the sponsoring Registrar, modify, suspend, transfer, or terminate services to the Registrant without written notice; the modification, suspension, transfer, or termination of services constituting notice to Registrant that such a breach has occurred. See below for important limitations on the liability of the Registry Operator and accredited Registrars with regard to acts by such parties under this Section.

The Registry Operator may delegate authority to:

- a. investigate any breach or potential breach of the Registry Operator Policies; and
- b. take action to cure or sanction any breach or potential breach of the Registry Operator Policies, including the authority to immediately suspend or transfer use of a Domain Name upon detection by a service provider or notification, e.g., from an Internet security agency, that the Domain Name may contain malicious software or otherwise violates the Registry Operator's Acceptable Use Policy.

In such circumstances, neither the Registry Operator, the sponsoring Registrar, nor their respective employees, directors, officers, affiliates, representatives, delegees, shareholders, agents, successors, and/or assigns nor any external service provider or Internet security agency triggering the suspension or transfer shall be liable to the Registrant or any other person on account of any service disruption or loss, irrespective of the nature of that loss.

11. **Disputes Between Registrants.** The Registrant acknowledges that the Registry Operator cannot, and does not, screen or otherwise review any Request to verify that the Registrant has the legal right to use a particular character string as or in a Domain Name, or that the Registrant will not infringe the rights of a third party. In the event that any third party disputes the Registrant's legal right to use, display, exploit, or register the Domain Name in any fashion, including allegations that infringing

material (as defined in the Registry Operator's Acceptable Use Policy) is displayed on or forwarded, including via the use of frames, to a website which is resolved via the Domain Name or that the registration or use of the Domain Name itself infringes the third party's rights, the Registrant shall act in accordance with and agree to be bound by the ICANN-mandated URS, UDRP, applicable ICANN Consensus Policies, and the Registry Operator's CRS. The Registrant will be solely liable in the event that the Registrant's use of the Domain Name is found to constitute an infringement or other violation of a third party's rights.

18. **No Waiver.** The failure of either Registrant or Registry Operator at any time to enforce any right or remedy available to it under this Exhibit with respect to any breach or failure by the other party shall not be a waiver of such right or remedy with respect to any other breach or failure by the other party.

No prior or contemporaneous written, oral, and/or electronic representation, negotiation, or agreement form a part of this Exhibit, and this Exhibit supersedes all prior written, oral, or electronic agreements between the Registrant and the Registry Operator relating to the Requested Domain Name. Additional agreements, if any, may be entered into between the Registrant and Registrar relating to Domain Name services provided by such Registrar, provided that no such additional agreement may waive, alter, or supersede any provision of this Exhibit, neither may such an additional agreement impose any obligation upon the Registry Operator without the Registry Operator's express prior written consent.
